

Company Profile

Confidence in Motion.

Integrated logistics execution and supply-chain coordination across the Kingdom of Saudi Arabia.

WHO WE ARE

Coordinating Confidence Across The Kingdom.

Successful commerce depends on the ability to connect people, information, infrastructure, and trusted partnerships into one coordinated operating environment.

NTCC is an integrated supply chain company dedicated to simplifying complexity through disciplined coordination, operational insight, and dependable execution.

We work alongside organizations to align every critical element of the supply chain, enabling resilient operations, clearer visibility, and sustainable business growth across The Kingdom of Saudi Arabia.

“

*Confidence is never transported.
It is built through coordination.*

”

WHAT NTCC REPRESENTS

NEXUS

Connecting businesses, industries, people, and opportunities into one coordinated ecosystem.

TRUST

Building confidence through accountability, transparency, and dependable execution.

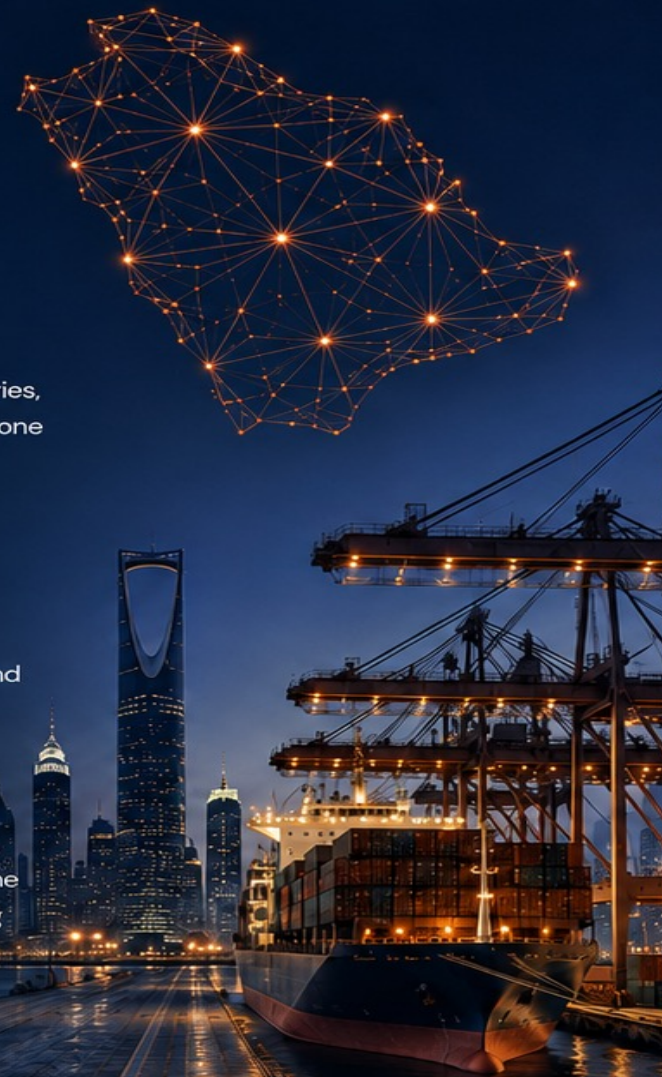

COORDINATION

Aligning every moving part of the supply chain into one operating model.

CONTINUITY

Strengthening long-term business success through resilient supply chains.

The Nexus Framework™

**COORDINATION TRANSFORMS
COMPLEXITY INTO CONFIDENCE.**

The Nexus Framework™ is our proven approach to integrated supply chain coordination—designed to align every element, connect every stakeholder, and deliver measurable outcomes across the Kingdom of Saudi Arabia.

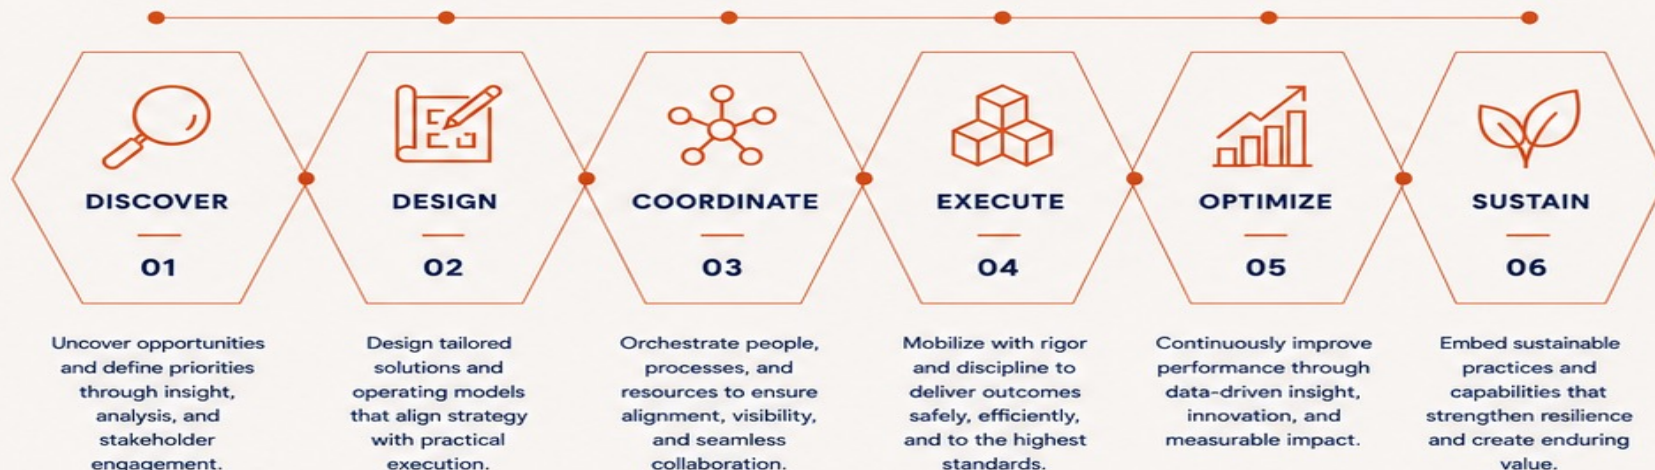

“*In a complex market, clarity comes from continuous coordination.*”

THE APPROACH

The Nexus Framework™ إطار الترابط

Coordination transforms obstacles into confidence.

A structured, end-to-end approach that turns coordination into a competitive advantage. From discovery to sustainment, we align people, processes, infrastructure, and partnerships to deliver resilient performance and long-term value.

THE ENABLERS

PEOPLE
Empowering skilled teams who bring expertise, accountability, and a shared commitment to excellence.

PROCESSES
Structured, disciplined workflows that drive consistency, efficiency, and continuous improvement.

INFRASTRUCTURE
Integrated systems and digital capabilities that enable visibility, resilience, and scalable performance.

STRATEGIC PARTNERSHIPS
Trusted alliances that extend capability, create value, and open new opportunities across the Kingdom.

Integrated Capabilities

One coordinated operating environment.

NTCC brings critical supply chain capabilities together through one disciplined operating environment. Each capability is aligned to create clearer visibility, stronger continuity, and accountable execution from origin to destination.

“

Capability is measured by how effectively everything works together.”

Pharmaceuticals

Why Organizations Choose NTCC

Three commitments. One accountable operating environment.

The value of a supply chain partner is not measured by the number of services offered. It is measured by the confidence they create, the complexity they simplify, and the continuity they help organizations achieve. NTCC brings together proven expertise, sector knowledge, and disciplined execution to deliver measurable results and sustainable value—across every link of your supply chain.

“

The strength of every supply chain is measured by the confidence it creates.

”

CONFIDENCE

Clarity. Accountability. Certainty.

COORDINATION

Aligned stakeholders. Connected execution.

CONTINUITY

Resilient operations. Long-term value.

CONFIDENCE. COORDINATION. CONTINUITY.

Experience That Guides Every Decision

Built on knowledge. Strengthened by industry insight.

NTCC is supported by collective industry knowledge across logistics, shipping, port operations, cargo handling, commercial coordination, and supply chain management. This experience strengthens the way we understand complexity, anticipate risks, and coordinate decisions with discipline.

“

Experience is measured by the quality of decisions it creates. ”

NTCC

Senior Advisory Access

Industry guidance for complex logistics decisions.

NTCC supports selected clients with access to senior advisory guidance across ports, customs, regulatory readiness, shipping flows, cargo handling, storage, industrial logistics, and inland transport coordination. This advisory access is designed for practical decision support, risk awareness, and informed direction when logistics situations require experienced judgment.

“

The right guidance before movement can prevent costly disruption after movement begins.

”

1

Senior Port, Industrial Logistics & Government Interface Advisor

Guidance across port operations, customs coordination, cargo handling, storage, industrial security, SFDA-related readiness, material movement, and authority-interface matters.

2

Senior Regional Shipping & Inland Transport Advisor

Guidance across shipping-line processes, Saudi and GCC logistics flows, disruption planning, container movement, inland transport coordination, and regional continuity considerations.

3

Advisory Format

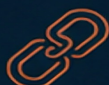

Phone guidance · Email review · Video advisory meetings · Selected face-to-face sessions · NTCC-led coordination supported by senior advisor input.

Confidence.

Coordination.

Continuity.

Advisory access is provided for practical guidance and decision support. Formal approvals, regulatory decisions, customs outcomes, and official representations remain subject to the relevant authorities and approved channels.

Solutions Designed for Real-World Complexity

Practical solutions. Measurable impact.

Every supply chain challenge is different, and every client has unique requirements. At NTCC, we design solutions that fit your operations, markets, and growth ambitions. Whether you need transportation coordination, customs and port support, specialized handling, or end-to-end movement across the Kingdom, we create solutions that deliver clarity, control, and confidence at every step.

Our approach combines operational excellence, trusted partnerships, and senior-level insight to deliver solutions that are practical, scalable, and built to perform in the real world. We do not just move cargo. We solve problems, remove friction, and help your business move forward with certainty.

“

The strength of every supply chain is measured by the confidence it creates.

”

SOLUTIONS TAILORED TO YOUR NEEDS

We take the time to understand your business, then design logistics solutions that align with your goals, timelines, and operational realities.

OPERATIONAL EXCELLENCE

From planning to execution, we apply proven processes, performance standards, and continuous improvement to ensure reliable outcomes.

RISK-AWARE & COMPLIANCE-FOCUSED

We anticipate risks, ensure regulatory alignment, and implement controls that protect your cargo, your reputation, and your business continuity.

STRONG PARTNERSHIPS

We work with a vetted network of transport, port, warehouse, and service partners who share our standards and commitment to your success.

NATIONWIDE REACH, LOCAL INSIGHT

With deep knowledge of the Saudi market and strong national coverage, we deliver solutions that work on the ground—everywhere across the Kingdom.

We don't believe in one-size-fits-all. We believe in the right solution, delivered the right way.

Confidence.

Coordination.

Continuity.

Let's Build What's Next

Confidence. Coordination. Continuity.

NTCC works with organizations that require clarity, accountability, and disciplined coordination across their supply chain. Together, we can build operating environments that support growth, resilience, and long-term business confidence.

“

The next advantage begins with the right connection.
